

Sharing Initiative Fair Processing Materials

GP Connect (IC24)

The GP Connect programme uses technology to allow different clinical systems to communicate so that health and social care staff in different teams and locations can;

- View a patient's GP practice record
- Manage GP appointments
- Import or download data on a patient's medicines and allergies

This will save time for clinicians, and provide better, more convenient care for patients and allows more information for appointments made outside of usual hours.

For more information about your rights or information sharing – see the main privacy notice page.

Extended Hours

As a practice, we have worked hard to make extended hours a reality for our patients. We work with other GP practices and NHS organisations to provide these services when our practice is closed. The name of our provider can be found on our main practice privacy notice under "GP Support Organisation".

These providers will be able to access your health record during these consultations so that they can deliver safe and effective care.

The organisations providing extended hours appointments are bound by confidentiality in the same way that practice staff are and there is a Data Sharing Agreement in place to ensure that personal data is used in a lawful and appropriate way.

Norwich CCG, West Norfolk CCG, North Norfolk CCG Medicines Management

The Medicines Management Teams within 8. Norwich CCG, West Norfolk CCG, North Norfolk CCGs support the GP practices in those areas to use medicines in the best way and to ensure good treatment choices are made; they provide information and guidance on prescribing to ensure that our patients receive medicines that are safe, evidence-based, and cost-effective.

This means that the GP practice will allow them to have access to clinical systems and patient personal data so that they can see what medications are being prescribed for our patients and produce reports so that the practice can prescribe medications safely and effectively.

Medicines Management staff are bound by confidentiality in the same way that practice staff are and there is a Data Processing Contract in place to ensure that personal data is used in a lawful and appropriate way.

Enhanced Care in Care Homes

The enhanced health in care homes hopes to improve the care of residents of care homes by coordinating with other services such as the GP practice and social care teams. Your practice is involved with this service. Here is some information about how your information is used.

Your GP uses technology to highlight the records of patients who live in the care home and who might benefit from a visit from their GP

Your GP will ask a doctor from North Norfolk Primary Care to visit you / your loved one on their behalf

Whilst the doctors or nurses from North Norfolk Primary Care are onsite visiting other residents, they may also find out that you / your loved one needs some support and will arrange this for you / your loved one

In order to provide you with safe and effective care, we will usually need to share information with each other – like the care plan that is created by your care home and the health record that is held by your GP.

The North Norfolk Primary Care doctors and nurses will only visit with patients that have agreed to meet with us

When we need to access their health or care information – we will let you / your loved one know

We are permitted to share information in this way by data protection law but we will give you / your loved one an opportunity to object

Once we have visited with you / your loved one, we will share information about the visit with the care home and your / your loved one's GP and it will form part of your health record and kept in line with NHS guidelines

You / your loved one have / has a number of rights when it comes to information. Please ask your / your loved one's GP if you / your loved one want(s) to have a copy or change information or to make a complaint.

Our data protection officers would be happy to answer any questions you have.

More information about information sharing for the project and about how we keep your information secure – please visit the [NNPC Website](#)

North Norfolk Primary Care staff are bound by confidentiality in the same way that practice staff are and there is a Data Processing Contract in place to ensure that personal data is used in a lawful and appropriate way.

For more information about your rights or information sharing – see the main privacy notice page.

Social Prescribing (Norfolk)

Social prescribing enables GPs, nurses and other primary care professionals to refer people to a range of local, non-clinical services.

Social prescribing enables patients to find non-clinical solutions to improve their own health and wellbeing by supporting them to connect with their local community. This can include advice and information on local services and connecting individuals to social activities, clubs, groups, and like-minded individuals in their community. The practice will do this by employing someone to act as a 'link' between the practice, the patient and non-clinical services within the community.

Current providers in the Norfolk and Waveney area include;

[Norfolk Citizens Advice Bureau](#)

[North Norfolk District Council](#)

Depending on where they are in the county, the GP practice will refer patients to one of these providers and will send basic information such as name, NHS No, address, date of birth and background to their health and wellbeing needs.

The providers are bound by confidentiality in the same way that practice staff are and there is a Data Sharing Agreement in place to ensure that personal data is used in a lawful and appropriate way.
